

**Supporting our armed forces
with spare parts, to get the job done**

www.sitcorporation.com

Who we are...

Established in 1980, Syracuse International Technologies specializes in providing top quality products and spare parts. SIT is a professional procurement resource for Private and Government Buyers offering the finest products, innovative solutions and competitive pricing. We enjoy an excellent reputation among our customers in the fulfillment of their needs.

Our prestigious customer base includes US armed forces such as Navy, Army, Air Force, Marines and the Coast Guard. We also work with Homeland Security, NASA, and GSA. Our warehouses are completely equipped to handle any type of military spec packaging, bar coding, and web invoicing. SIT Corporation is best suited to fulfill all your government contract requirements. We are not only a recognized supplier to the military, but we also have extensive logistic systems and sourcing databases for all types of products.

Our in-house computerized system allows us access to tens of thousands of suppliers and, in turn, millions of spare parts. SIT Corporation has an unparalleled reputation with our business partners and customers. SIT provides our clientele with thorough, complete, and professional purchasing services. We work closely with our customers to determine the best strategy for the parts they need at the best price.

From our corporate offices to our representatives throughout the globe, our goal is to supply our customers with the highest quality products and services, in a timely and cost-effective manner.

Authorized Distributor of:

SIT Exclusive Partnership Program

SIT Corporation offers high-quality business solutions to commercial, industrial, and military manufacturers. For decades, SIT Corporation has been a trusted government contractor and is equipped to supply the US federal, state, and local administration.

We have developed a personalized program that is designed to help manufacturers focus on their products, systems, and competitive advantage while simultaneously saving time and resources, reducing overhead and administrative costs, and increasing sales.

SIT Corporation has an extensive logistics system and prestigious customer base. We can meet all our partner's needs through our state-of-the-art system and packaging warehouse. Additionally, our multilingual sales and purchasing professionals speak English, Spanish, Italian, and Portuguese, allowing us access to numerous international defense and commercial markets. We fully understand and have the knowledge to manage your marketing, packaging, exporting, and selling needs.

We take pride in offering our partners a personal experience along with exceptional customer service.
